

PACKAGES

This is the most important journey of your life.

It's not a pit stop, or a quick fix, it's a personal growth spurt that you're initiating to get yourself to the next level.

All of my journeys include these 4 essentials:

Onboarding

One hour dedicated to listening and learning about each other. We use this session to define what success looks like for you at the end of our journey.

Goalsetting

I help you set achievable goals that keep you on track to get to your picture of success.

1 Psychometric Assessment

It's important to know what some unconscious barriers are in how you approach different areas of life.

Special Gift

Depending on what challenge we're tackling, I want to give you something to capture our journey and to celebrate your wins.

Prices do not include taxes.
